

## My recommendation to the COS today – five steps

- 1) Build the activity, maybe even under a new name, with honest delivery, without financial tricks or "smart ideas."
- 2) Replace each person who contributed to the "new order" with staff who were thrown out due to "disobedience." (if they are still interested.) Among them I believe you will find the persons capable of running the church.
- 3) Clean away and burn all "new ideas", all the orders, advices, methods, systems and so forth, that was introduced by the new guys. Restart the system from a time around 78-79, a time when statistics went up through honest, actual application of Source.
- 4) Repair the damage caused: Make it up to everyone who was treated sadistically, give redemption to all those who were treated unjust, the marriages that were broken, they who sought justice but was not given any, including their families.
- 5) Rebuild Scn reputation through a planetary amends project.
